It was said authoritatively again, It was said authoritatively again, however, that no definite step will be taken by the American government until Germany has replied to the informal inquiries submitted by Ambassador Gerard in the cases of the Sussex, Englishman, Manchester Engineer and Eagle Point. It was declared that word from Berlin was being awaited not so much because information as to what has happened is wanted, but to give Germany an opportunity to present her version and to say what will be done about it.

In view of the evidence collected, it is confidently believed in many quarters that Germany will admit the attack on the Sussex, and unofficial dispatches from Berlin have intimated that such admission undoubtedly will be accompanied by disavowal and offer of feparation.

Acceptances of such a response by the United States would depend upon the measure of punishment meted out to the submarine commander responsible for the offense.

Aside from the Sussex case, particular attention is being given by the administration to the number of neutral vessels torpeded recently. While there were American citizens on but five of these ships, the wholesale distriction of unarmed merchant craft has created a profound impression. Washington, April 6,-Five cattle growers who said they were prosper-ous and contented, protested to the house judiciary subcommittee today against the Borland resolution for an investigation of the packing industry which has been urged earnestly by

western livestock organizations and individual raisers and feeders.

The witnesses were J. C. Clay of North Salem, Ind.; W. D. Reynolds and James Nail of Fort Worth, Texas; Phil S. Hayner of Taylorville, Ill., and Charles S. Clayton of Denver, Colo. ### NARROW MARGIN MAKES FATE DOUBTFUL.

The narrow margin by which the federal volunteer provision was retained makes it doubtful that it will be in the measure finally framed by the conference committee between the two houses. An effort during the debate on the house army bill to insert this section which is designed to provide such a force as the continental army proposed by former Secretary Garrison, was decisively defeated.

Tirms had left Juarez today for Casas Grandes and Pearson, where they will be available to General Pershing, caused satisfaction here. Although the army authorities were not the actual shippers, it was believed the practical result would be the same.

San Antonio, April 6.—A report from Col. W. C. Brown. commandant of Thirteenth cavalry, received tonight, indicated that he at least believed Francisco Villa had fled from the district about Guerrero and was making his way south. He sent his report from Cushuirachic, west of Chihuahua, two days ago, and said that he was pursuing what he characterized as a "hot trail" of the fugitive chief.

Colonel Brown referred to the skirmish his force had April 1 with 150 of Villa's men in which three Mexicans were killed. There were no American casualties. It was assumed at headquarters that this was the same engagement reported by Major Evans to General Pershing. Major Evans to General Pershing. Major Evans to General Pershing added that natives arriving at his camp had stated that the Americans had killed between thirty and forty of the Villa men.

Colonel Brown sent the report received foday to Consul Letcher at Chihuahua, who forwarded it to General Bell at Ell Paso. It was the first time the Mexican wires have been used for the transmission of military reports. The report was sent on to General Funston from El Paso.

People who are overburdened with superfluous fat, know only too well the discomfort and ridicule that over-stout people have to bear.

If you are carrying around five or ten pounds of unhealthy fat you are unnecessarily weakening your vital organs and are carrying a burden which destroys the beauty of your figure.

There is no need of anyone suffering from superfluous fat. If you want to reduce your weight in a simple, safe and reliable way, without starvation diet or tiresome exercise, here is a test-worth trying. Spend as much time as you can in the open air, breathe deeply and get from Morrison's Old Corner Drug Store or any good druggist a box of oil of korein capsules; take one after each meal and one before retiring at night.

Weigh yourself once a week so as to know just how fast you are losing weight and don't leave off the treatment or even skip a single dose until you are down to normal.

Oil of korein is absolutely harmless, is pleasant to take, and helps digestion. Even a few days' treatment has been reported to show a noticeable reduction in weight, footsteps become lighter, your work seem easier and a lighter and more buoyant feeling takes possession of your whole being.

# Thin Men and Women Who Want to Gain Weight Should Try At Once This 10 Days Flesh Building Test

Pounds a Week in Many instances. Full Directions Given.

Most thin, rundown men and women would probably be glad to increase their weight with ten to twenty-five pounds of good, firm, solid, healthy, stay-there flesh and fat if they believed it possible to accomplish such result by merely making the flesh making materials in their daily meals do a little more work than they are doing now.

This is said to be the chief reason why most thin people do stay underweight. They are so constituted that they fail to fully assimilate the nourishment of their food, a great deal of which passes from the body as waste. Increase assimilation to normal and normal weight follows as a matter of course. If you are ten pounds or more underweight and believe this can't be done in your case, here is a simple inexpensive and really harmless test that is well worth trying.

First weigh yourself. Then with each meal for ten days and each night as you go to bed take a single Nagrol tablet. Then weigh yourself again and let the scales tell the story.

Sargol may not increase your weight as much as one pound a day but with whatever increase in your weight as much as one pound a day but with whatever increase in your weight may be shown you can decide what its continued use for a few weeks further may be shown you can decide what its continued use for a few weeks further may be shown you can decide what its continued use for a few weeks further may be shown you can decide what its continued use for a few weeks further may be shown you can decide what its continued use for a few weeks further may be shown you can decide what its continued use for a few weeks further may be shown you can decide what its continued use for a few weeks further may be shown you can decide what its continued use for a few weeks further may be shown you can decide what its continued use for a few weeks further may be shown you can decide what its continued use for a few weeks further may be shown you can decide what its continued use for a few weeks further may b

superfluous fat, know only too well the discomfort and ridicule that over-stout people have to bear.

If you are carrying around five or ten pounds of unhealthy fat you are unnecessarily weakening your vital organs and are carrying a burden which destroys the beauty of your figure.

There is no need of anyone suffering from superfluous fat. If you want to reduce your weight in a simple, safe and reliable way, without starvation diet or tiresome exercise, here is a test worth trying. Spend as much time as you can in the open air, breathe deeply and get from Morrison's Old Corner Drug Store or any good druggist a box of oil of korein capsules; take one after each meal and one before retiring at night.

Weigh yourself once a week so as to know just how fast you are losing weight and on't leave off the treatment or even skip a single dose until you are down to normal.

Oil of korein is absolutely harmless, is pleasant to take, and helps digestion. Even a few days' treatment has been reported to show a noticeable reduction in weight, footsteps become lighter, your work seem easier and a lighter and more buoyant feeling takes possession of your whole being.

# Cottolene

"The Natural Shortening"

Until Cottolene was offered, people thought-and rightly-that most fried foods were greasy, indigestible and unhealthful. But Cottolene was quickly found to be a frying aid which actually made foods better tasting and better to eat.

None of the good flavor of the food is allowed to escape; the cooking process is rightly finished and the digestibility of the food is retained along with tempting taste.

It is this natural quality of Cottolene which also makes it so superior for pies, pastry, biscuits, cakes and all shortened foods.

Try Cottolene-order a small pail from your grocer. Then arrange with him for a regular supply.

### ON TO TEMPLE.

The News gladly adopts as its leading editorial for today the following call for the second annual convention of the Young Men's Business organizations of Texas, to be held at Temple, April 26th and 27th. It regards that meeting as of first importance, and urges every progressive city and | inanimate things. town in Texas to have representatives there. The time has come for a forward movement in Texas such as we have never attempted before. Remember the dates. On to Temple.

### THE CALL.

To the Young Men's Business Leagues, Clubs and All Other Young Men's Business Organizations of Texas: The Associated Young Men's Business Organizations of Texas will meet in the second annual convention in this city on April 26th and 27th. The first annual convention was held at Fort Worth, May 17th, 1915, with delegations from all parts of the state. At this meeting fifty-three active young men's organizations affiliated with the state organization, and there are now more than three hundred other such organizations in Texas that should hold membership in the state organization. The purpose of this letter is to solicit the membership of your organization and invite you to the state convention

If your organization wishes to join the state association, or if you wish to send delegates to the association before joining, please sign the enclosed self-addressed post card

The state association is thoroughly democratic. Every delegate will have a right to vote on any matters coming up for consideration. No doubt a national association will develop from the meeting at Temple, and we want you to take part in it and send as large a delegation as possible to this convention. Low railroad rates, and no advance in prices of hotel rates. We promise you a great time. in prices of hotel rates.

### THE FLEXNER PLAN.

The general education board of New York has submitted for popular criticism a plan for an educational experiment prepared by Mr. Flexner, assistant secretary of the board, which is thus

"Aside from reading, writing, spelling and figuring, the curriculum of the Modern School would be built out of actual activities in sciene, industry, aesthetics, civics. The work in science would be the central and dominating feature."

The Modern School, in Mr. Flexner's opinion,

Drop the study of formal grammar.

Not teach useless historic facts. Not teach Latin nor Greek.

Teach one or more modern languages.

Endeavor to develop a spontaneous, discriminating and genuine artistic interest and appreciation -rather than to fashion wooers of music and art.

Every exercise would be a spelling lesson; science, industry and mathematics would be inseparable; science, industry, history, civics, literature and geography would to some extent utilize the same material.

It would provide play-facilities, sports and gym-

It would discipline the mind by energizing it through the doing of real tasks.

Children would begin their work in the Modern School by getting acquainted with objects-animate and inanimate; they would learn to know trees, plants, animals, hills, streams, rocks and to care for animals and plants. At the next stage, they would follow the life cycles of plants and animals and study the processes to be observed in inanimate things.

They would also begin experimentation—physical, chemical and biological.

They would also begin experimentation—physical, chemical and biological.

They would also begin experimentation—physical, chemical and biological.

They define forty-sixth annual report of the state board of education to the state board of the state board of education to the state board of education

The Flexner plan, in brief, would train the child for activity rather than for theory. It would turn out of the school a doer instead of a dreamer.

Much of the hoary-headed superstition still clings about popular notions concerning education. There are some who will look with horror upon the proposal to take Latin and Greek out of the common school, although they have no more business there than has a dromedary. If the discussion of the Flexner plan helps to destroy superstitions which now retard real progress in the educational field, the way will be blazed for a rapid move for-

If anyone becomes impatient over the reports from Mexico, let him remember that the search for Villa is equivalent to chasing a meteor through the milky way with both the sun and moon in eclipse.

We may find out where we're at in this senatorial muddle after the Democratic state executive committee shall finish its deliberations at Hillsboro today, but there is some reason to doubt it.

Texans who have been working in the interest of better roads will find a note of cheer in the fact that on April 7 the second largest road contract letting in the history of the state highway department of Ohio will take place under the direction of Highway Commissioner Clinton Cowen. Bids on forty-two road contracts will be received, contemplating the building of 94.21 miles of highway at an estimated cost of \$1,465,784. The road building movement is one in which all should engage, without regard to diversity of opinion on other subjects. The man who prefers to stick to a sticky road belongs in Topolobampo, not in Texas.

### ON TO TEMPLE.

The News gladly adopts as its leading editorial for today the following call for the second annual convention of the Young Men's Business organizations of Texas, to be held at Temple, April 26th and 27th. It regards that meeting as of first importance, and urges every progressive city and town in Texas to have representatives there. The time has come for a forward movement in Texas such as we have never attempted before. Remember the dates. On to Temple.

## THE CALL.

To the Young Men's Business Leagues, Clubs and All Other Young Men's Business Organizations of Texas: The Associated Young Men's Business Organizations of Texas will meet in the second annual convention in this city on April 26th and 27th. The first annual convention was held at Fort Worth, May 17th, 1915, with delegations from all parts of the state. At this meeting fifty-three active young men's organizations affiliated with the state organization, and there are now more than three hundred other such organizations in Texas that should hold membership in the state organization. The purpose of this letter is to solicit the membership of your organization

and invite you to the state convention.

If your organization wishes to join the state association, or if you wish to send delegates to the association before joining, please sign the enclosed self-addressed post card

The state association is thoroughly democratic. Every delegate will have a right to vote on any matters coming up for consideration. No doubt a national association will develop from the meeting at Temple, and we want you to take part in it and send as large a delegation as possible to this convention. Low railroad rates, and no advance in prices of hotel rates. We promise you a great time. Enclosed find official program.

Fraternally yours,
W. A. BRADY.
Secretary of the A. Y. M. B. O. of Texas. Temple, April 5.

The enterprise is declared to have been uming such proportions that it is a reat topic of interest throughout the ountry, especially among Jewish peo-

Dr. Warsaw explained that the work is being carried forward under the auspices of Brai Brith, district No. 7. A convention of this district is due to be held at Little Rock, April 30. At convention last year it was decided at a committee should investigate the field for such an undertaking and make a report in 1916, with subscripmake a report in 1916, with subscriptions amounting to at least \$10,000.

"We are going to make our promise more than good," Dr. Warsaw said.

"We are going to report with between \$40,000 and \$50,000. Already \$22,000 has been subscribed by twenty-five persons. Several \$1000 subscriptions were obtained here without difficulty in just explaining the work to a few in just explaining the work to a few

Because of his manner of life," Dr. Warsaw continued, "the Jew has be-come imbued with a love for social life. Under ordinary conditions in this country such a life is out of the question for the immigrant Jew with agricultural ability. over the Brazos river is very rough and surely in need of repairs," said John Sinclair yesterday afternoon.
Continuing, Mr. Sinclair said: "The floor of the bridge is rough and uneven, and I usually go to the suspension bridge in order to avoid it. Of course it cannot be kept in the pink of condition all the time, without great expense, but just now it really needs attention. A coat of something to smooth down the rough places would surely be acceptable to the public, if the expense is not too great." # New Way to Make Apple Dumplings

Served With Hard Sauce or Cream and Sugar

By Mrs. Janet McKenzie Hill, Editor of the Boston Cooking School Magazine Here is a new way to make apple dumplings that will surely please every housewife, for it is not necessary to have whole apples, and the juice cannot run out and burn as with apple dump lings where the apple is placed in the center and the dough turned up around The biscuit part forms a crispy shell that holds the apples and juice.

K C Apple Dumplings One and one-half cups sifted flour; 1/2 teaspoonful salt; 3 level teaspoonfuls K C Baking Powder; 4 cup shortenrove a very great convenience to the ing; about 1/2 cup milk; apples.

Fill the cups of a buttered muffin pan with pared and sliced apples, sprinkle with salt and turn two or three tablespoonfuls of water into each cup. Sift together, three times, the flour, salt and baking powder; work in the shortening, and mix to a soft dough with the milk. "The flooring of the big steel bridge Drop the dough from a spoon with the ver the Brazos river is very rough apples in the cups, giving it a smooth exterior. Let bake about twenty-five minutes. Invert the pan on a large servingdish. Put a spoonful of hard sauce above the apple in each dumpling and finish with a grating of nutmeg.

Of McLeman county, subject to the action of the Democratic primaries, July 22.

Answer: There is the use of three-grain hypo-nuclane tablets to increase your weight. They are the surest, safest and best health, strength and flesh producers I could suggest. You should easily gain twenty-five pounds in weight in a relatively short time.

"Proud" says: "I have always been proud of my hair until lately, when it has acquired an ugly, greasy, stringy appearance and my scalp is covered with scales and itches terribly. What may I do?"

Answer: You should use plain yellow minyol to relieve the scalp of dandruff and itching. It acts as a tonic to the scalp and hair strands and promotes a beautiful, luxuriant growth of hair. Clip the ends of the hair about half an inch, to get rid of broken ends.

Answer: Quite often kidney and bladder trouble follow child-birth, and if your symptoms are the usual ones, such sex swelling of the feet, puffs under the eyes, chills and fever with headache and pains in the back, would suggest that you use balmwort tablets. They are a splendid all-around kidney medicine and tone and liven the kidneys.

# ORDINANCE ON BILL POSTING

Results of City Election Officially Canvassed-Installation Ceremonies April 12.

The recommendations of Fire Comnissioner Ben C. Richards, which were outlined in these columns Thursday morning, regarding closer inspection of the East Waco levee, and steps look-ing to better care for the levee by taking necessary action in that direc-tion, were adopted yesterday morning by the city commission, and the inten-tion is to see in future that the tion is to see in future that the embankment is kept in a state of preparedness to resist the flood waters of the Brazos river at all times.

A communication from Mayor J. W. Riggins was presented at this commission meeting, showing that the re-port of the auditor would be presented to the commission at a recessed ses-sion tonight, also some matters re-

garding the finances of the city. Protesting against the manner in which bill posters are littering up the city by tearing off old advertising sheets from the bill boards and scattering them broadcast to the winds, Commissioner Ben C. Richards asked for an ordinance stopping this procedure, and his motion prevailed. He declared the city has been imposed on in this connection, and made to look unsightly when it was unnecessory

In his communication to the commission, Mayor Riggins said in part:
"This will be the last regular meeting of this commission that I will be permitted to attend. While there is an element of sadness in the fact, yet it will be a great relief to me to lay down the burdens and responsibilities of my position, which I have dis-charged for the last two years to the best of my ability. I would respect-fully advise that under the charter, newly elected officers can be inducted into office at your next regular meeting, which would be the 13th.

"In this connection I want to thank

ou for relieving me from further uties, as I expect to leave the city just as soon as my physician advises it will be safe for me to travel."

# Your Eyeglasses

There are two main reasons why you are wearing glasses, or should wear them. First is that you may see better and easier. Second, to relieve that distressing pain that frequently comes about the head and eyes, or reflex troubles in other parts of the body. Very few people have perfect eyes. Many people think they have until an eye test reveals the fact that they have not. A great many, not knowing their eyes are defective, abuse the use of their eyes until they are often in great distress. Everyone who has poor vision should wear glasses, regardless of age, or relief from eye strain cannot be expected. We will be glad to examine your eyes and give you our candid opinion of their condition.

There are two main reasons why you are wearing glasses, or should wear them. First is that you may see better and easier. Second, to relieve that distressing pain that frequently comes about the head and eyes, or reflex troubles in other parts of the body. Very few people have perfect eyes. Many people think they have until an eye test reveals the fact that they have not. A great many, not knowing their eyes are defective, abuse the use of their eyes until they are often in great distress. Everyone who has poor vision should wear glasses, regardless of age, or relief from eye strain cannot be expected.
